

PARENT/GUARDIAN COMPLAINTS ABOUT TREATMENT OF STUDENTS

Need, Question, Issue

How are parent/guardian complaints about treatment of students handled?

POLICY STATEMENT

Parent/guardian concerns about treatment of students provide the opportunity for close and effective communication between the school and home. Policy #2080 outlines under the rules and procedures a process for dealing with complaints about programs or activities; the same process should effectively deal with student treatment concerns. Parents/guardians with general concerns and questions about discipline policies and procedures should contact the appropriate school principal.
